Emmett Reynier

I am an applied environmental economist who uses quasi-experimental and structural methods to identify the health, welfare, and distributional consequences of environmental, climate, and energy policy. I teach undergraduate environmental economics and applied causal inference classes.

Appointments

2026 – *present* **Assistant Professor**, Department of Economics, University of Georgia
2025 – 2026 **Postdoctoral Fellow**, Center on Food Security and the Environment, Stanford University
